KNOW-NOTHING ELECTORS. The know-nothing Convention of the Fifth Congressional district, which recently met at Lebanon, minated Robert HATTON, Esq., as their Elector. Mr. H. is a sprightly and efficient popular declaimer and is likely to be the next member to Congress from that district, unless the people should conclude to elect a good National democrat, which they certainly ought to do.

The know-nothing Convention for this district which recently met at Clarksville, nominated Jas. M. QUARLES, Esq., as their Elector. Mr. QUARLES is the Attorney General for that Judicial circuit, which he will of course resign, as his present position will not admit of his remaining in office coneigtent with the new platform of his party. He is a good speaker and as clever a fellow as it is possible for a man to be, who has deserted his old party and joined the know-nothings. This gentleman also hopes to get to Congress, we understand, if Gen. ZOLLIGGIFFER should be run for Governor or otherwise displaced from his present position. But Gen. ZOLLICOFFER will hardly be willing to give up a certainty for an uncertainty, or yield a good thing to accommodate others.

The most amusing circumstance of this Conven tion was the selection of our old friend AMENT as one of its Vice-Presidents. We would like to have been there to have seen him sitting up by Horn-BERGER, the President. We know his heart was full. We can see him now, with his cleanly shaved face and his large shirt collar bristling under his ears as he throws himself back upon his official dignity, a model for a statue! Ye Gods, how he swells !

But we are not altogether satisfied with the position which they gave our friend. We see no reason why he should play second fiddler to Mr. Horn-BENGER. When did HORNBERGER ever floor the Governor? When did he ever paint a picture of "Jacob's ladder" and carry it around to amuse the b'hove with? When did he ever make a speech to a State Convention that called down such continued applause that nothing was heard that the speaker said? We are sorry he didn't refuse! but being "intensely" American, and believing in the doctrine that "office is neither to be sought or declined " he accented.

We insist that our friend is not appreciated. Bu there is a chance yet in store for him-a position precisely suited to his merit. FILLMORE may refuse to run with Donelson for the Presidency. In that event, what is DoneLson to do? We know of no one more likely to accept than AMEST .-"AMENT and DONELSON!" That's the ticket. We can see it on the transparencies now. We can hear the little boys shouting it through the streets. We can see it in poetry, after the new-fashioned Hiawathan style. How it jingles! And then there would be another biography for the Banner, lecture upon the present system of prison labor, &c., &c. What an age we live in! Who can tell what a day or an hour may bring forth!

AN OPENING. Our neighbors of the Gazette are exceedingly anxious to get up a controversy with some one on the doctrines of the Catholic Church. Inasmuch as the Union and American is a political and not a sectarian journal, and as we shrewdly suspect there is a good deal of the parson about the editors of that paper, we cannot accept the glove so politely tendered.

We find, however, in glancing over the Banner for 1852, that two members of that paper were almost entirely occupied with a defence of the Catholic Church, written by ABCHBISHOP HUGHES. The article is headed "THE CATHOLIC CHAPTER IN THE HISTORY OF THE UNITED STATES," and is highly laudatory of the patriotism of that Church. Gen. Zollicorres published this article with the following emphatic endorsement of the patriotism of that Church. We suggest to our neighbors to try ZOLLICOFFER-perhaps he would dispute with them upon their grave theolog. ical propositions:

"We enter upon the publication to-day of an exceedingly interesting and valuable historical paper, from ONE OF THE BEST INTEL-LECTS OF THE AGE. We mean the "Catholic Chapter in the History of the United States," by BISHOP HUGHES. It will be concluded to-morrow.

"The detailed and comprehensive information imparted, gives to this paper great value for the general reader. Its spirit is unexceptionable, breathing A HIGH AND PURE MORALITY. in which PATRIOTISM and brotherly neighborwhip are conspicuously inculcated. THE GE-NIUS OF OUR INSTITUTIONS IN RE-SPECT TO RELIGIOUS LIBERTY, is luminously pictured to the mind. The incidents of this "Catholic Chapter" are so HALLOWED BY HISTORICAL RECOLLECTIONS DEAR TO PROTESTANTS, that a perusal of the paper must promote charity, allay unreasonable prejudices, and strengthen and widen that superstructure of toleration, WHOSE FOUN-DATION IS LAID IN THE CONSTITUTION, and whose summit sustains as one of many columns that mighty union of American States and people, THE HARMONY AND PEACE AND PROSPERITY OF WHICH ARE SO IMPORTANT TO THE SPREAD OF LIB. ERTY THROUGHOUT THE WORLD." SECOND CHOICE.

The Patriot of Saturday discloses the not very astonishing fact that Messrs Nelson and Brien, were but the second choice for State electoral ticket, of the Know Nothing Convention.

In a complimentary notice of Ex-Gov. Neil S. Brown, that paper says : "Though repeatedly urged on him by the State Convention, he felt constrained to decline the post at the head of the electoral

HOAXED.—The purported proceedings of a late democratic meeting in Van Buren county, published in our paper, were fictitious: in brief, some graceless scamp hoaxed us. A friend at Spencer informs us of the fact, and asks us to send him the manuscript, that the authors may be exposed.

There seems to be an epidemic disposition to play off such tricks by the Know Nothings. We have foiled many attempts recently. But proceedings of public mertings are published so entirely as matters of course, that we hardly look at them. and never read them until in type. To prevent such things hereafter, we must ask our friends to get some one with whose hand-writing we are familiar to enclose such documents to us.

DEMOGRATIO VICTORIES,-The majority of Judge Goraline, democrat, in the Fourth Judicial District of Wisconsin, is likely to reach three thousand! Manitowoc county gives Mr. Gorsline 1,541 votes. to 45 for his know-nothing and black republican antagonist!

ty, Wisconsin, which last fall gave Bashford near over the Know Nothings and Black Republicans 1000 majority, every den

elected at the spring election. The appearance of Mr. Dallas, the Amerioan Minister, in the British House of Commons. JOHN HEWSON, Democrat, for mayor, beat his attracted some attention. The London correspondent of the Glasgow Daily News describes him which the Know Nothings carried last year by as "a remarkably mild looking old gentlemen of large majority, the Democrats, on the 7th instant. fine complexion, with white locks, looking very elected a good portion of their ticket. like a country clergyman in the dissenting line."

CALIFORNIA POLITICS. The following notice of the late Democrati State Convention in California is taken from the Columbia (Cal.) Gazette. Maj. CHATTANDOGA GAZITTE .- F. A. PARHAM, Esq. as sold the Gozette to L. L. Poars, Esq , formerly of the Rogersville Times. Mr. PARHAM is one of the oldest editors in Tennessee, and he established the Gazette in the wilderness where Chattanooga now stands nearly twenty years ago .-The new editor has industry, tact, and talent.

NEGRO TO BE HUNG .- The Cleveland Banner of the 25th says that the jury in the case of the State against the negro boy Jack, for the murder of ROWLAND, in McMinn county, in February last, returned a verdict of guilty, and the Court sentenced him to be hung on Friday the 20th day of June. A white man by the name of WILLIAMS has been arrested and lodged in jail, as an accomuntil the next term of the Court in August.

ACCIDENT .- From the same paper we learn that an accident occurred in the Hiwassee Copper Mines a few days ago, which resulted in the death of one man and severe injury to another. It appears that they were working at a blast when it exploded and blew up. One man died on the night of the accident, from the injuries received -the other, it is thought, will recover.

FIRE .- The dwelling house of Mrs. Fore, near Athens, was destroyed by fire, on Saturday morning last. Mrs. Forz had \$150 in money and notes of hand to the amount of \$30,000 burned up. The fire originated in the kitchen and had made such progress when discovered and burned so rapidly that the inmates of the dwelling had barely time to escape. MARBLE.-Col. JAMES H. ARMSTRONG has

shown the editor of the Knoxville Register several beautiful specimens of very fine marble, taken from a quarry on his land some five or six miles from Kncxville. The supply is apparently inexhaustible, well located for quarrying, and convenient both to the river and railroad

MAIL ROBBER -The boy Huones, (says the Knoxville Register,) charged with robbing the mail on the Harrison route, was on Thursday discharged by the Court in consideration of his youthfulness. J. J. ABLES, of Rhea county, has since been arrested, upon information given by HUGHES, on a charge of having instigated the boy to perpetrate the crime. He was bound over till the next term of the Court.

POST OFFICE DEPREDATION .- An apprentic boy in the Knoxville Register office, HENRY GARD. NER, about 14 years of age, was arrested on last Saturday by the Deputy U. S. Marshal, on a charge of abstracting letters from the drawers and boxes at the Post Office. He has been bound over until next term

ROUTE AGENTS .- Capt. H. H. Dill, of Mc-Minn county, has been appointed by Postmaster General Cumperty route agent on the E Tennessee and Georgia Railroad, vice F. W. EARNEST, resigned. The Captain has been a Conductor on the Railroad since the first trains started, and is (says the Athens Post) a famous clever fellow -The Department could not have selected a man better qualified for route agent.

Col. WILLIAM WILSON, of Huntsville, has received the appointment of Mail Agent on the Memphis and Charleston Railroad, between Tus-Tuscumbia, has received an appointment on the same route. Salary \$800.

WHEAT .- The Athens Post says: As far as we have had an opportunity of observing, the growing wheat looks very well; and we think the apprehension that it had been seriously injured by the severe winter was premature.

The same paper gives a table showing the num ber of bushels of wheat shipped over the East Tennessee and Georgia Railroad of the last year's haviest, up to the last of February. The total foots up at four hundred and twenty-four thousand five hundred and sixteen bushels. A portion of this was sold at \$1 50 per bushel, while none was sold at less that \$1-amounting to more than half a million of dollars in the aggregate. In addition to the wheat shipped, it is estimated that between one and two hundred thousand bushels have been manufactured into flour and exported. In 1850 one hundred thousand bushels, in grain and flour, would have covered the amount exported from the same counties. The increase in this single item will serve to show what effect the railroad is having upon the agricultural interest of that section.

[From the Knozville Register.] AGRICULTURAL ORGANIZATION.

AGRICULTURAL .- By the annexed official report it will be seen that the East Tennessee Agricultural Society, has united permanently with the County Societies of East Tennessee in holding the "Eastern Division Fair," and further that the annual Fair has been permanently located at Knoxville. We think, and there is no selfishness in the thought, that the selection is the best that could have been made. A more accessible point, and at the same time, one affording better facili ties for holding the Fairs, making preparation for the accommodation of stock, &c., could not have been found. The amalgamation of the Pairs, one of which was already located at this place, will have the effect of giving additional importance and adding greater interest to the annual exhibitions. inasmuch it will enable the Commissioners to extend and enlarge the Premium List, and prepare better accommodations than they have heretofor been able to provide. Our people, of all avoca tions, should bear the Fair in mind, during the summer, and prepare for a grand demonstration next fall. We have been requested to call the at tention of our brethren of the press, in East Tennessee, to the proceedings found below:

MISSISSIPPI CENTRAL AND TENNESSEE BAIL-ROAD.

From the B liver Democrat, we learn that this oad is rapidly progressing to a completion. The section in Tennessee, from the Grand Jure-

tion, three miles east of Lagrange, through Hardeman and Madison counties, via Bolivar and Jackson, connecting there with the Mobile and Ohio road, is almost entirely graded, and timbers and cross-ties furnished. The iron for this section is in New Orleans; the track laying will commen at the junction, in June, and completed through, it is presumed, in all the month of October -Judge BROWN, the President; Gen. R. P. NEELY, Secre tary and Treasurer, as also stockholders and other friends of the road, are entitled to great credit for their preserving industry and skillful management plice in the murder. He will not have his trial of this great inland enterprise and its thus early

On the Mississippi section, the cars have bee running from the junction mentioned, to Holly Springe, since last year; from that point, south, the iron is already purchased for 30 miles of the road, and from Canton, Miss., north, the iron is ready for 40 miles, the interim between is already graded and ready for the iron so soon as purchased. From Canton to Jackson, Miss, 25 miles, the cars are running From New Orleans, on the line towards Jackson, Miss, the cars are running 120 miles; the road from thence to Jackson is nearly all graded and ready for the iron. So, it will be seen at a glance, that this mammoth enterprise, of connecting the great valley of the Ohio with New Orleans by railroad, through one of the richest and most productive sections of country in the world, is on the very eve of being consummated.-WAL-TER GOODMAN, Esq., President; and Col. MALLOY. Secretary and Treasurer of the Mississippi section, are receiving great credit for their severe industry and excellent management on the Mississippi section of "our railroad,"

EAST TENNESSEE AND VIRGINIA KAILROAD. We copy the following interesting items of in

Wallace, which conveys information more accurate and satisfactory than has yet been given. The energy with which the Memphis Road is being hastened forward, and the good earnest with which the E. T. & Ga. Company have gone to work on the Cleveland Road, will have the effect, we trust, of springing up a rivalry between all the companies engages on the route, and of determining each not to be

outdone by the other: KROXVILLE, March 31, 1856. John Robin McDaniel, Esq., Pres't. Va. & E. T. R. R. Co.

DEAR SIE-Your welcome note of the 17th, came to hand in due time, and the intelligence was so cheering that I took the liberty of havin it printed in our papers.

I am now engaged in building the cut-off from

Cleveland to Chattanooga, 281 miles in length, by which we shorten the distance between Lynchburg and Memphis and Nashville, 40 miles. But for a tunnel of some 900 feet I would not fear to yet I do not intend to be the last in getting through I start to New York this morning to procure the rails. From Chattanooga to Nashville, you are aware, the line is complete. From Chattanooga

to Memphis, less than seventy miles are to finish and much of the grading done. The indefatigable President, Samuel Tate, will run it through this year, if it is possible for man to accomplish it. His means are ample.

The remaining link to perfect this central line is the East Tenn. & Va. Railroad, leading from this point to the junction with your road at Va. & Tenn line. The length is about 130 miles, some 25 of which is in use, and the grading and bridging on the remainder well advanced. The progress on this work has been rather slow, yet their means have been used with great economy.

Our legislature has aided them with great lib erality; their means are now abundant; and I have great confidence in their making extra exertions to complete their road at an early day. I cannot, however, give you an approximate idea of the

travel when Tenne-see shall have completed her part of this great line of Railroad, but let me admonish you in time that, as yet, you have hardly formed any correct estimate of the immense mu titude you have to provide for daily. The whole travelling world South and West of us, even to the Guli of Mexico and the shores of the Atlantic, will be poured in on you without intermission. Respectfully and truly yours, C. Wallace, Pres't.

[Correspondence of the Chicago Times.] THE MISSISSIPPI RIVER CROSSED BY THE IBON

HORSE. DAVENPORT, Iowa, April 22-9, A. M. When Caesar with his legions crossed the Rubi-

con, which divides Cisalpine Gaul from Italy, he was well aware of the greatness of the work he was engaged in; and although many attempted to dissuade him from such an undertaking, yet nothing daunted he landed his army on the plains of Italy, astonished the world by his deeds-and left mankind an instance of bravery and enterprise worthy of record. We, too, however, have crossed the "Rubicon -the great "Father of Waters" which for centuries has rolled on into the bosom of the mighty

ocean without a pier to mar its progress. To-day has the mighty deed been accomplished at which the world has so often smiled in derision. Yes, the Mississippi is practically no more. It is spanned by the mighty artery of commerce and enterprise-the ratiroad. Science has stretched its arm across the ever-flowing Mississippi—and along its finely-knit muscles has the "iron horse" bounded with a heavy snort as it scents from afar the slugglish waters of the Missouri. The mission of Cie sar of old was to conquer; so is that of Caesar of the nineteenth century: but the latter is one o peace and plenty. The "war horse" of civilization may have fiery nostrils, but it has also an olive branch, the seeds from which it scatters as it flies That such an event should have occurred without an assemblage of spectators from all quarters of the globe to witness it, is only another instance of the mighty progress which has been made within the last fifty years in the science of bridge building. As we approached Rock Island, there were rumors afloat that we would cross to lows on the new bridge. "Cross the Mississippi on a bridge!" cried an intelligent looking gentleman. "On a

bridge?" simpered a feminine voice from a young lady to her parents, bound for Council Bluffs; "why, Pa, I thought the Mississippi was a great riverlarger than the Hudson?" So silently had this work progressed, that while half the world has been asieep, genius has been spanning the mightest river on the globe, and eon-

necting two as magnificent sections of territory as the sun ever shone on. Swiftly we sped along the iron track-Rock Isand appeared in sight—the whistle sounded, and the conductor cried out, " Passengers for Iowa keep their seats." There was a pause-a husb-as it were, preparatory to the fierceness of a tornado. The cars moved on—the bridge was reached— "We're on the bridge—see the mighty Missis application on beneath"—and all eyes were fastened on the mighty parapets of the magnificent bridge, over which we glided in solemn silence. A few minutes and the suspended breath was let loose. "We're over!" was the cry, "we have crossed the Mississippi in a railroad car."

The National Intelligencer rejoices over the late action of the old line whigs of Kentucky, culo gizes the whig party, and urges its resuscitation,

"We repeat, then, that we heartily approve the spirit and object of the movement commenced by the whigs of Kentucky, and indulge the hope that it will meet with a response from all who cherish kindred sentiments. Meanwhile, for ourselves, we can only say to the 'old line whigs' whom it may be our honor to address, that it still seems expedient to us that the whig party should preserve its distinet organization, and, as we have heretofore had occasion to suggest, abide its proper time for making the weight of its influence felt in that decision which duty and patriotism shall call upon it to take in the present conjuncture of political events."

Practice in Marengo, Greene, Sumter, Choctaw, nd Perry counties. 8029-2m d&t-w SOUTHERN STRAW CUTTER COMPANY. THIS Company would announce to the people of the South, that after having carefully and patiently examined and tested the many different Straw and l'eed Cutters now before the public, they have at length decided upon PARKER'S MACHINE as being the best Hand Straw Cutter of the day, and upon that decision, have purchased the right for a number of the Southern States. chased the right for a number of the Southern States, are prepared honestly to recommend this machine as the one best adapted to this country, as it is not in the least complicated and can be kept in perfect working order by the most ordinary field hand. Its capacity for work is much greater than any Cutter of the same price ever be-fore offered to the public. We will here mention the points

fore offered to the public. We will here mention the points of its superiority; but would remark that the Machine must be seen to be appreciated.

Ist. Its simplicity. 2d. Its cost as compared with others.

3d. The case and rapidity with which its plain, single knife can be taken off for grinding. 4th. The construction of it is such that it must cut, though the knife be dull. 5th. It can always be easily kept in working order. 6th, It will out faster than any other existing Cutter that can be sold for the same money. 7th, It is the self-feeder. 8th. It can

be guaged to cut at different lengths.

Various testimonias of different Fairs, and complimentary notices of the press might be brought forward to show the estimation in which this machine is held in other States, but we prefer resting it upon its own merits, and proving to the people of Tennessee by its working qualifies what the machine is. We believe it more thoroughly adapted to this country than any machine heretofore introduced. The right for manufacturing and selling these machines in the States of Tennessee, Alabama, Georgia, Musissippi, Arkansas, Louisiana, Texas, North and South Carolina, etc., either by Counties, Townships or State, is for sale by the Company.

One of the machines can be seen in operation at No 24 leaderick street.
